PROFESSIONAL SUMMARY

Experienced Frontend Web Developer with a strong focus on results. Skilled in HTML5, CSS3, and JavaScript, with a proven track record of collaborating effectively with diverse teams, improving user experience, and ensuring seamless website performance. Proficient in creating user-friendly web interfaces and implementing responsive design principles. I'm seeking opportunities to apply my skills and contribute to cutting-edge web projects.

EDUCATION

BTech in Electronics and Telecommunication Engineering
SVERI's College of Engineering, Pandharpur.   2022

Diploma in Electronics and Telecommunication Engineering

SVERI's College of Engineering (Poly), Pandharpur.   2019

SSC (Semi-English)
Shantiniketan Gurukul, Korti, Pandharpur   2016

WORK EXPERIENCE

Reality Premedia Services | Pune, Maharashtra.

Web Developer | May 2024 – Present

- Implemented front-end solutions using HTML, CSS, and JavaScript.
- Collaborated with cross-functional teams to develop user-friendly web interfaces.
- Utilized responsive design principles for optimal user experience.
- Contributed to code reviews and suggested improvements for efficiency and performance.
- Participate in project planning and brainstorming sessions to provide input and insights.

Reality Premedia Services | Pune, Maharashtra.

Web Developer Intern | March 2024 – May 2024

- Contributed to web development projects, gaining hands-on experience in HTML, CSS, JavaScript.
- Collaborated with the development team to enhance user experience and smooth website functioning.
- Demonstrated problem-solving skills and attention to detail while working on assigned tasks.
- Assist in the implementation of new features and functionalities.
- Conduct testing and debugging to identify and resolve issues.

PROJECTS

Flipick Mepro (Pearson)

Description: Flipick Mepro is an English learning platform designed to enhance proficiency from basic to advanced levels. The web app comprises 10 levels, each consisting of 10 modules encompassing Reading, Listening, Writing, Speaking, and Vocabulary. Developed a sophisticated score tracking system to evaluate module performance and overall progress. Employed advanced techniques like question randomization in the Quiz, Level Test, and Remediation modules to ensure a dynamic learning experience.

Role: Web Developer

Technologies Used: HTML, CSS, JavaScript, scripting, and CSS styling were extensively utilized throughout the project to create a dynamic and responsive learning platform.

Responsibilities:

- Contributed to web development projects, gaining hands-on experience in HTML, CSS, JavaScript.
- Collaborated with the development team to enhance user experience and smooth website functioning.
- Demonstrated attention to detail by implementing question randomization techniques in the Quiz, Level Test, and Remediation modules.
- Contributed to the development of a sophisticated score tracking system to provide comprehensive evaluation of module performance and overall progress.
- Conducted manual testing to ensure the platform's functionality, usability, and responsiveness across different browsers and devices.

JCI (Johnson Controls International) ServiceNow HR Knowledge Management

Description: Designed and maintained articles on the admin side of the JCI ServiceNow HR Knowledge Management project. This project utilized the ServiceNow platform, which offers various tools for handling articles. The HR knowledge management feature allowed the enterprise HR department to provide employees with a searchable knowledge base containing HR policies, procedures, payroll and other informative articles. By sharing this information, HR reduced the time spent answering routine questions and enabled employees to find relevant answers.

Role: Web Content Developer | Web Designer

Technologies Used: HTML, CSS for responsive designing and Amaze builder tool for enhanced functionality.

Responsibilities:

- Worked as a web content developer and web designer, ensuring the articles were visually appealing and responsive across all devices.
- Collaborated closely with the team to understand the requirements and translate them into effective designs and layouts.
- Utilized HTML and CSS to create engaging and interactive web pages for various types of articles, including guides, FAQs, policies, and more.
- Implemented the Amaze Builder tool to enhance the responsiveness and functionality of the articles.
- Converted PDF attachments into responsive web pages, overcoming the challenge of accommodating different languages such as English, French, Japanese, Chinese, Portuguese, and more.

CERTIFICATIONS

Legacy JavaScript Algorithms and Data Structures | freeCodeCamp   May 2024

Responsive Web Design Certification | freeCodeCamp   July 2023

Full Stack Web Development | Giri's Tech Hub, Pune.   Feb 2023

SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, ES6, Bootstrap, React JS.
- **Backend:** Core Java, MySQL
- **Tools:** Git, GitHub, Figma, Amaze Builder (ServiceNow), VS Code, Eclipse, etc.

STRENGTHS

- Capable of transforming challenges into opportunities.
- Ability to convert negative situations into positive outcomes.
- Team player.
- Rapid skills acquisition.

ACHIEVEMENTS

- Awarded Second International Prize for "Home Automation using IoT + AR" project.
- Volunteer: Campus Ambassador in Xenia 21 at PICT, Pune.

INTERESTS

- User centric web designing
- Making creative mini web projects.
